Filed October 31, 2019
**OLFACTORY SIMULATION SYSTEM FOR HEAD-
MOUNTED DISPLAYS**
BGD Ref.: 610842.100019

FOR YOUR INFORMATION — PLEASE READ

Dear Wil:

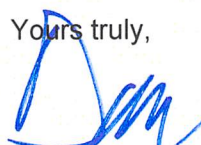

We have received and are pleased to enclose the official Filing Receipt issued by the U.S. Patent and Trademark Office (PTO) showing the application number and filing date assigned to the above patent application. This receipt should be carefully preserved in BSIC's files as the original record of the filing of this application in the PTO. The serial number and filing date of the patent application should be kept confidential. However, this application is scheduled for publication on April 30, 2020, at which point this information will become publicly available. The PTO estimates that the first official action will be in approximately 16 months, based upon current conditions.

As you know, BSIC is now entitled to use the expression "patent pending" in connection with any products, systems, or processes covered by this patent application, until either the patent issues or the application is abandoned. It is important that any such product, system, or process so marked be covered by at least one of the pending claims; otherwise, BSIC may be subject in the future to a claim of "false marking."

We also enclose a Declaration and a Declaration Addendum for each inventor to separately sign and date, together with an Assignment document to be signed by the inventors and by an officer of BSIC. We look forward to receiving these executed documents as soon as possible in order to record them with the U.S. PTO.

We will report to you further as this application progresses. In the meantime, please do not hesitate to contact me should you have any questions. Many thanks.

Yours truly,

Daniel L. Boots
